

SculptrVR

Create smooth, polygonal, and cubey sculptures and worlds of any size. SculptrVR's 10,000x zoom enables massive creations with tiny details! SculptrVR gives you almost unlimited space so your imagination is totally free! SculptrVR's intuitive and fun tools let your imagination turn into real creations. Get a better view of your sculpted landscapes by Hang gliding through them. Join an online game with 4 friends (cross platform with Go and Rift!) to build massive monuments together or have a sculpt-off! When you're happy with your creation, you can upload to the SculptrVR content gallery and let others see the incredible things you've made. You can also browse the gallery with hundreds of creations! Creations made in SculptrVR can be exported to OBJ or FBX formats for 3D printing or sharing online! In your world, anything is possible.
